

Corporate Governance Research Resources

This document provides an excellent starting point for researching key areas in corporate governance, including ethical leadership, stakeholder engagement, regulatory compliance, executive compensation, and blockchain in governance. The following websites and platforms offer access to numerous research papers on these topics, many of which are available in PDF format for download.

1. Ethical Leadership:

- **Harvard Business Review** (hbr.org): Offers papers and articles on leadership ethics and transparency in decision-making.
- **SSRN** (ssrn.com): A great resource for research papers on leadership ethics, available for free download after registration.

2. Stakeholder Engagement:

- **MIT Sloan Management Review** (sloanreview.mit.edu): Features studies on balancing stakeholder interests and corporate governance.
- **Business Ethics Quarterly** (cambridge.org): Publishes research on stakeholder theory and engagement strategies.

3. Regulatory Compliance:

- **SSRN** (ssrn.com): Offers a variety of research papers on corporate regulations, including compliance with laws like Sarbanes-Oxley.
- **Lexology** (lexology.com): A platform for legal papers on corporate compliance and governance reforms.

4. Executive Compensation:

- **The Conference Board** (conference-board.org): Provides research on executive compensation practices and pay equity.
- **SSRN** (ssrn.com): Extensive papers on performance-based executive pay and ethical considerations in compensation.

5. Blockchain in Governance:

- **Blockchain Research Institute** (blockchainresearchinstitute.org): Research papers on blockchain applications in corporate governance.
- **IEEE Xplore** (ieeexplore.ieee.org): Offers technical research on how blockchain is transforming transparency and shareholder voting.
